The **One-Stop-Shop** for all your graphic & internet needs

FACTS:

More people search the internet for services than the Yellow Pages, and **the internet reaches more potential customers than Yellow Pages** which are local with limited distribution, while your website is advertising to the whole world.

A website is also much more affordable than the Yellow Pages:

- Most **Yellow Pages** charge aprox. **\$1000/month** for a full page ad.
- **Your Website** is hosted for **less than \$200 for a whole year**. and you may have as many pages as you like for the same low price.
